

## WHCC: Unreimbursed Catastrophic and Trauma Care Study

### Appendix J: Inpatient Hospital Survey Data Summary Results, by Payor (SFYs 2002 and 2003)

Primary Payor	Number of Discharges	Total Charges	Total Estimated Costs	Total Payments	Cost Coverage	Percent of Total Charges	Payment-to-Charge Ratio
Medicare	913	\$ 67,338,764	\$ 34,250,492	\$ 24,245,773	71%	57%	36%
Medicaid	130	11,817,788	6,001,896	4,061,589	68%	10%	34%
Private Pay	383	28,779,522	14,723,075	25,357,712	172%	24%	88%
Other Gov't	23	968,439	660,687	544,570	82%	1%	56%
Workers Comp	52	4,029,304	1,998,013	1,907,593	95%	3%	47%
Bad Debt*	55	3,350,330	1,761,607	99,732	6%	3%	3%
Charity Care*	25	1,988,838	953,740	135,731	14%	2%	7%
No Payor	3	381,598	171,332	0	0%	0%	0%
<b>Total</b>	<b>1,584</b>	<b>\$ 118,654,581</b>	<b>\$ 60,520,841</b>	<b>\$ 56,352,700</b>	<b>93%</b>	<b>100%</b>	<b>47%</b>

*\*We identified the primary payor for each discharge as the payor with the most payments, considering a discharge with Medicare and Medicaid payments to be a dual eligible Medicare discharge. In some cases, there were minimal payments on a discharge even though the hospital indicated that the discharge was a bad debt or charity care discharge.*
